### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

A primary reason for allowance of claims 5-8 is that the prior art fails to teach the titanium or the method of making the titanium instantly claimed, wherein the composition is work-hardened, the composition is the composition instantly claimed, wherein there is substantially no copper, and wherein the Vickers Hardness of the titanium is the hardness satisfying the equations (1), (2) or (3), as instantly claimed. The examiner has found applicant's arguments and the evidence (i.e. Publications 1-4) persuasive with respect to the limitation "substantially no copper", wherein the copper recited in the GB '572 reference is required and materially effects the properties of the titanium at the concentrations taught.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
